

WARPSimLab Executive Summary Report

warpsimlab.org

Generated: 2026-08-22 20:13:17

Projection Period: 2026-2056 (30 Years)

Report Basis: Real Dollars (Inflation Adjusted)

Report ID: 2026-08-22 20:13:17

This report is intended solely for educational purposes.
It is not financial, investment, tax, legal, retirement, or other professional advice.
All results are generated from user-provided data and simulated market conditions.

Simulation Highlights

Portfolio Start Value \$104,000	Portfolio End Value \$0	Total Income Generated \$2,418,728
Total Expenses \$2,210,000	Years Simulated 30	Scenarios That Depleted Portfolio 59.50%

Income and Cash Flow Summary

This section shows how major income and Cash Flow categories change at key points in the simulation. It is a milestone summary, not a year-by-year table.

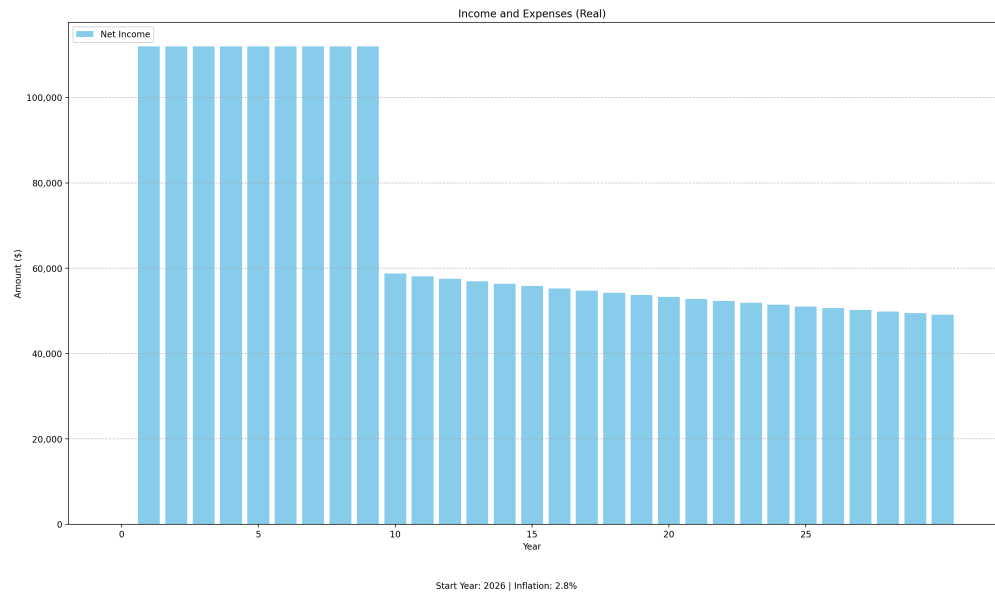

Cash Flow Category	First Income Year (2027)	Year Before Retirement (2035)	Year After Retirement (2037)	End Simulation (2056)
Gross Wages	\$115,000	\$115,000	\$0	\$0
Special Income	\$0	\$0	\$0	\$0
RMD	\$0	\$0	\$0	\$0
Retirement Withdrawals	\$0	\$0	\$0	\$0
Social Security	\$0	\$0	\$36,000	\$36,000
Pensions and Annuities	\$0	\$0	\$22,141	\$13,102
Investment Income	\$95	\$2,701	\$2,711	\$0
Gross Income	\$115,095	\$117,701	\$60,852	\$49,102
Employee 401k Contribution	\$3,000	\$3,000	\$0	\$0
Taxes	\$23,947	\$24,321	\$5,884	\$4,035
Tax Bracket	12%	12%	12%	10%
Net Income	\$88,148	\$90,380	\$54,968	\$45,067
Household Expenses	\$78,000	\$73,000	\$73,000	\$73,000
Net Cash Flow	\$9,175	\$16,600	-\$18,032	-\$27,933
Cash Flow Shortfall	\$0	\$0	\$18,032	\$27,933
Fund Expenses	\$1,242	\$3,261	\$3,013	\$0

Income Visuals

This section presents selected income visuals generated from the simulation results.

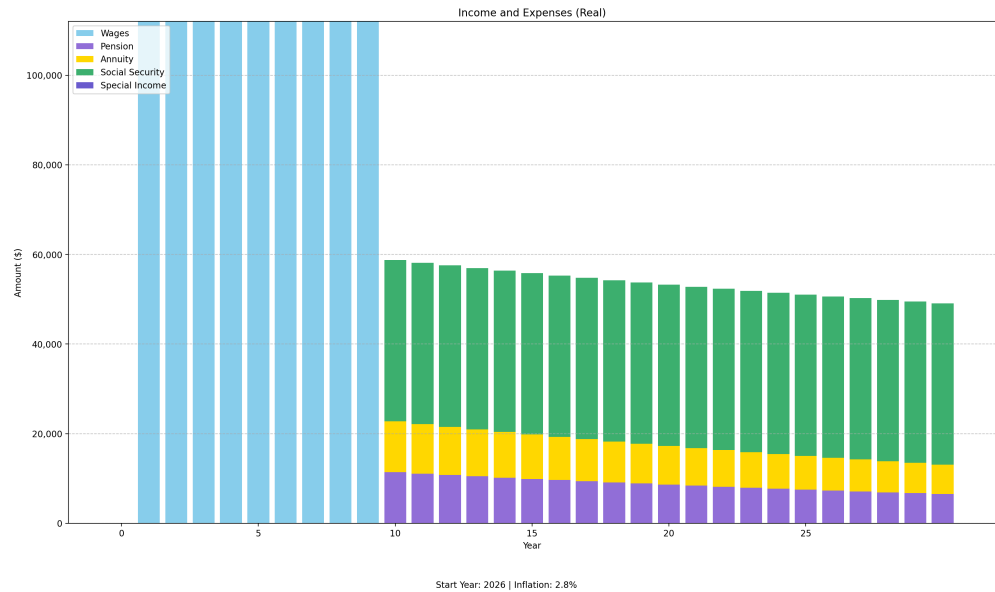

Income Projection

This chart shows simulated income.

Income Source Breakdown

This chart shows simulated income broken down by income source across the projection period.

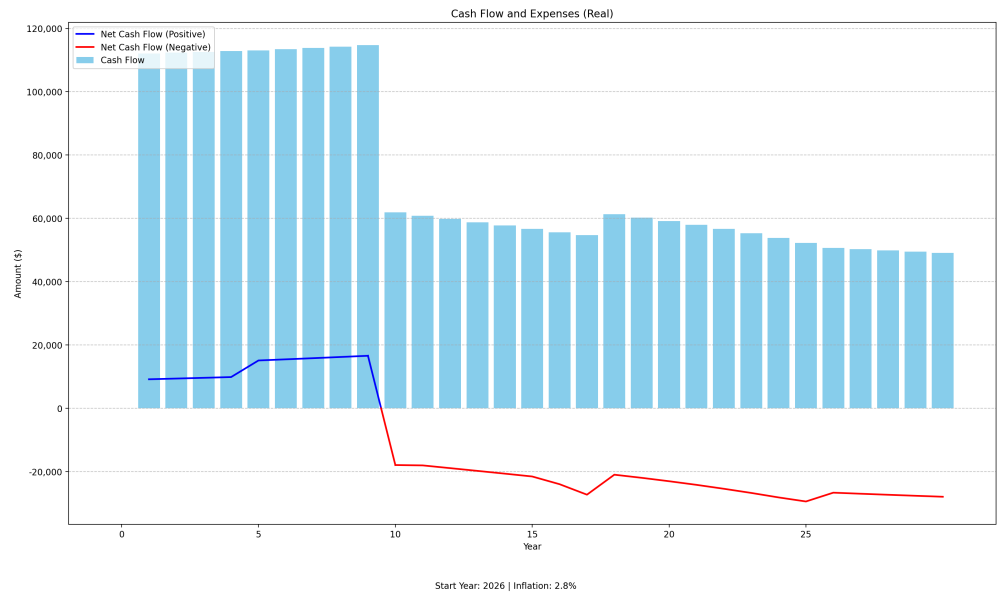

Cash Flow Visuals

This section presents selected Cash Flow visuals generated from the simulation results.

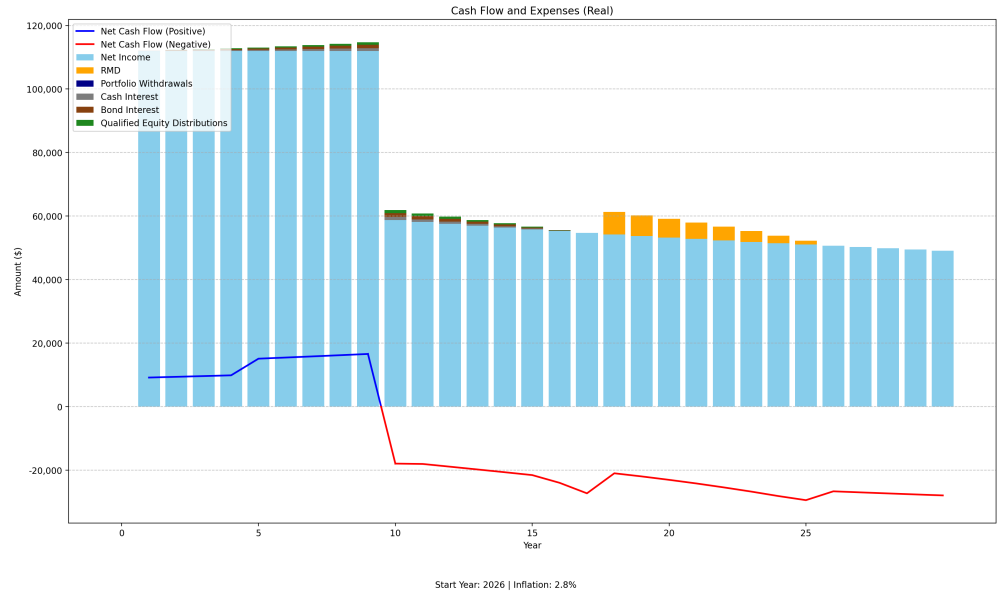

Cash Flow Projection

This chart shows simulated household Cash Flow.

Cash Flow Breakdown

This chart shows simulated Cash Flow broken down by source across the projection period.

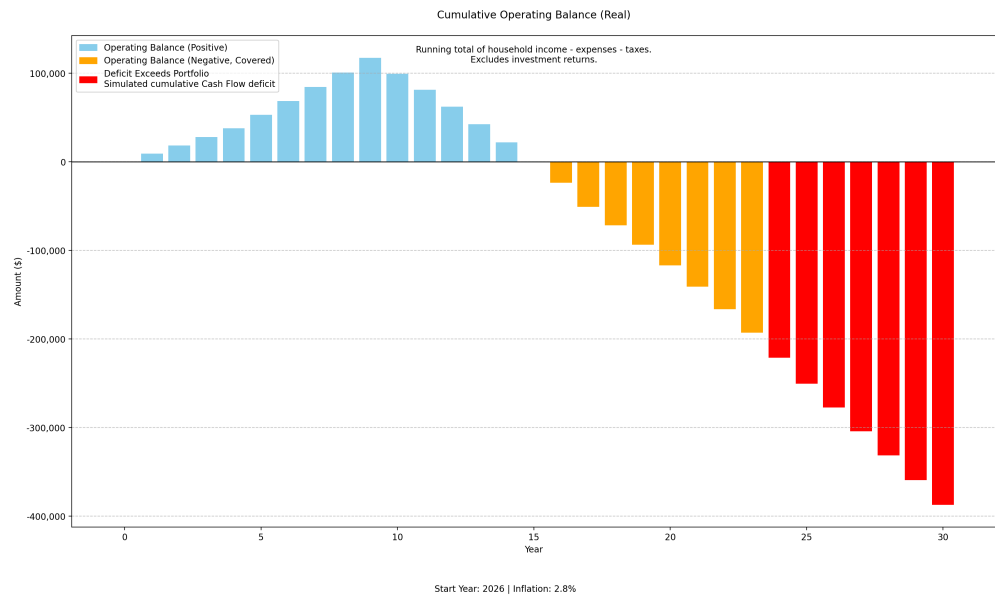

Operating Balance Visuals

This section shows cumulative simulated operating surplus or deficit over time.

Cumulative Operating Balance

This chart shows the cumulative simulated operating balance across the projection period. Positive values indicate cumulative simulated Cash Flow surplus. Negative values indicate cumulative simulated Cash Flow deficit.

Portfolio Summary

This section summarizes the portfolio at three major points in the simulation: the start, retirement, and the end of the projection period.

Start of Simulation

Portfolio Value in 2026

Pre-Tax Assets	\$100,000
Post-Tax Assets	\$4,000
Roth Assets	\$0
HSA Assets	\$0
Total Portfolio	\$104,000
Real Estate	\$100,000
Total Assets	\$204,000

Retirement

Portfolio Value in 2036

Pre-Tax Assets	\$186,008
Post-Tax Assets	\$114,562
Roth Assets	\$10,377
HSA Assets	\$0
Total Portfolio	\$310,948
Real Estate	\$124,766
Total Assets	\$435,714

End of Simulation

Portfolio Value in 2056

Pre-Tax Assets	\$0
Post-Tax Assets	\$0
Roth Assets	\$0
HSA Assets	\$0
Total Portfolio	\$0
Real Estate	\$60,034
Total Assets	\$60,034

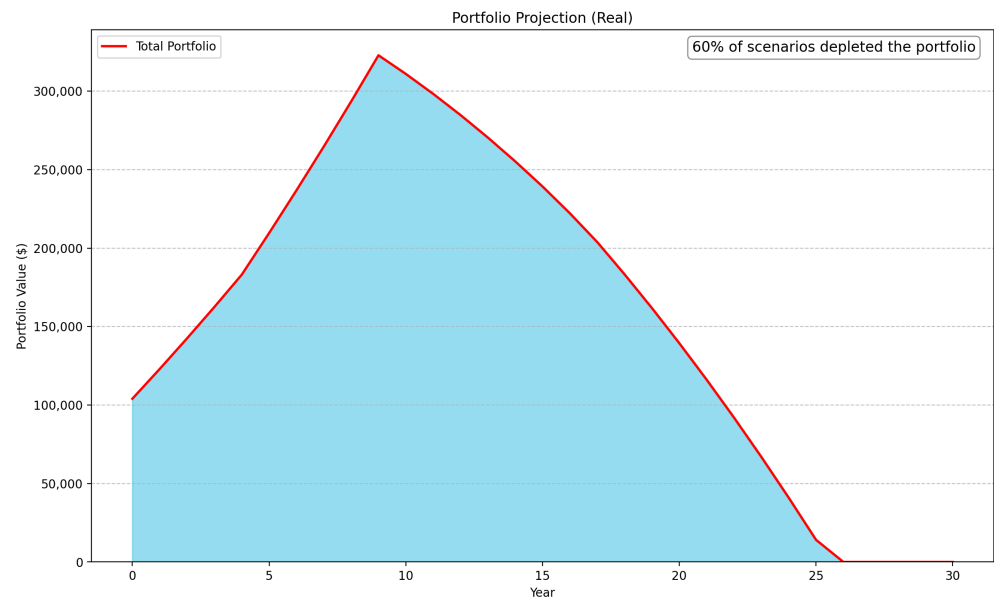

Portfolio Visuals

This section presents selected portfolio visuals generated from the simulation results.

Monte Carlo results use randomized market sampling with a fixed random seed, making results repeatable. Historical Windows results use fixed historical return sequences and are also repeatable.

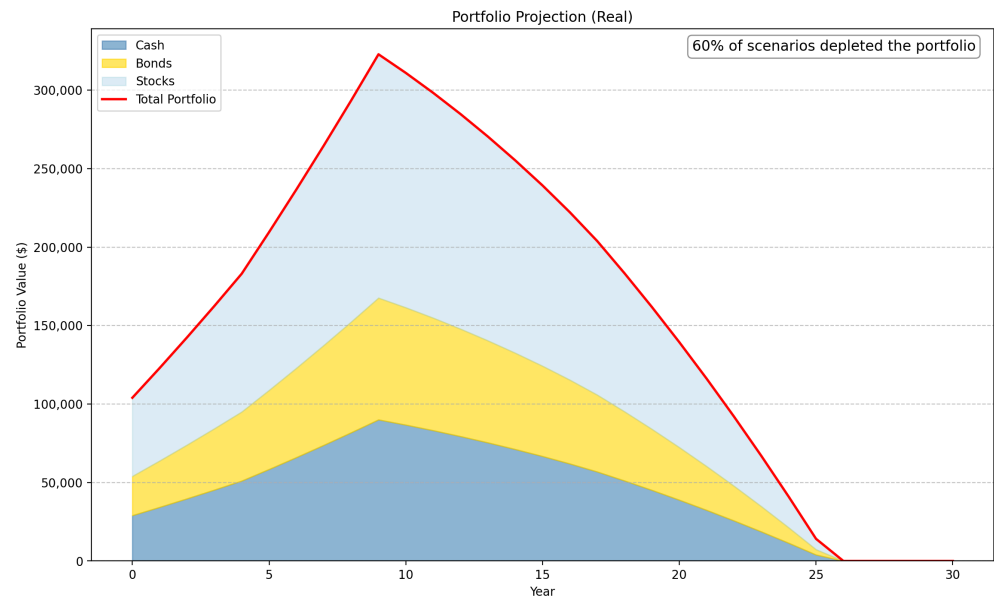

Portfolio Projection

This chart shows the simulated portfolio path.

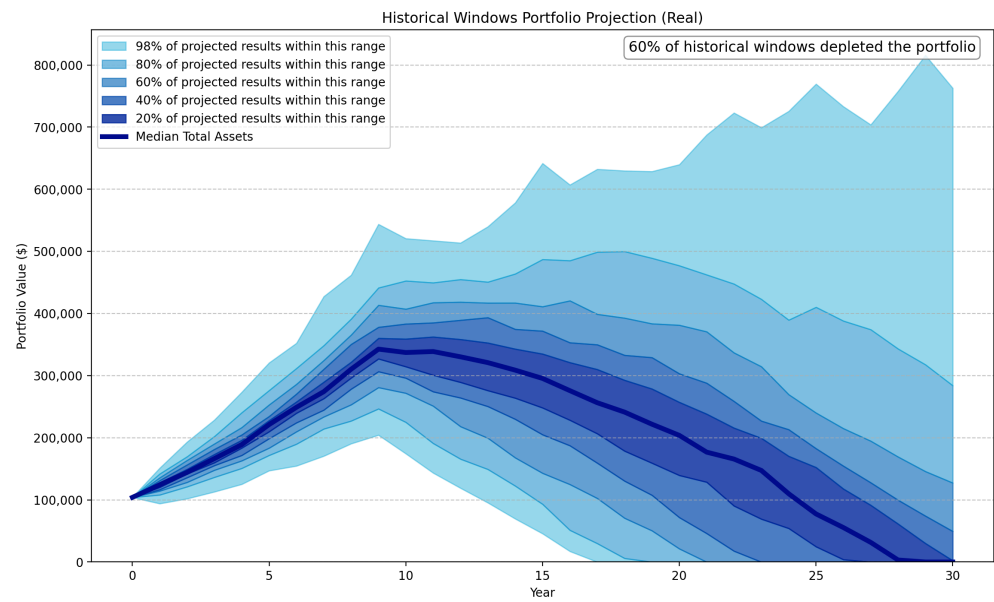

Portfolio Subcategories

This chart shows the simulated portfolio projection broken down by asset category.

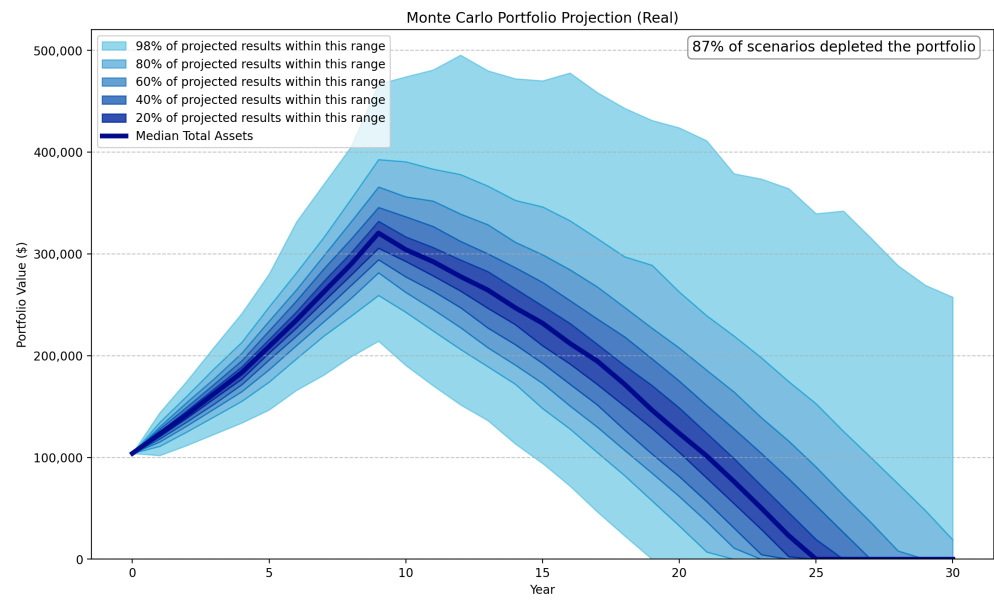

Historical Windows Analysis

This chart shows portfolio outcomes using rolling historical return windows.

Monte Carlo Analysis

This chart shows the simulated range of portfolio outcomes across modeled market paths.

Simulation Summary

These totals summarize the overall simulated outcome across the projection period.

Portfolio Outcome

Portfolio Start	\$104,000
Portfolio End	\$0
Maximum Portfolio	\$322,817
Minimum Portfolio	\$0

Simulation Totals

Taxes Paid	\$359,820
Household Expenses	\$2,210,000
Net Cash Flow	-\$387,042
Total Cash Flow Shortfall	
Fund Expenses	\$48,863

Risk Indicator

Scenarios That Depleted Portfolio	59.50%
-----------------------------------	---------------

Assumptions Appendix

This appendix documents the user-provided inputs and report settings used for the simulation.

Household & Retirement

Field	Husband	Wife	Total
Current Age	55	55	
Retirement Age	65	65	
Salary / Wages	\$65,000	\$50,000	\$115,000
Social Security Amount	\$19,000	\$17,000	\$36,000
Social Security Start Age	65	65	
Pension Amount	\$15,000	\$0	\$15,000
Pension Start Age	65	65	
Annuity Amount	\$0	\$15,000	\$15,000
Annuity Start Age	65	65	
Employee 401(k) / IRA	\$3,000	\$0	\$3,000
Employer Match	\$2,000	\$0	\$2,000

Portfolio Inputs

Starting Portfolio Inputs

Asset / Account Type	Husband	Wife	Total
Stocks Pre-Tax	\$50,000	\$0	\$50,000
Stocks Post-Tax	\$0	\$0	\$0
Stocks Roth	\$0	\$0	\$0
Bonds Pre-Tax	\$25,000	\$0	\$25,000
Bonds Post-Tax	\$0	\$0	\$0
Bonds Roth	\$0	\$0	\$0
Cash Pre-Tax	\$25,000	\$0	\$25,000
Cash Post-Tax	\$2,000	\$2,000	\$4,000
Cash Roth	\$0	\$0	\$0

Asset / Account Type	Husband	Wife	Total
HSA	\$0	\$0	\$0
Real Estate	\$50,000	\$50,000	\$100,000
Total Portfolio	\$102,000	\$2,000	\$104,000
Total Assets	\$152,000	\$52,000	\$204,000

Portfolio Settings

Fund Expenses Enabled	Yes
Fund Expense Rate	1.00%
Rebalance Strategy	Maintain Current Allocation
Rebalance Every Year	Yes

Expense Inputs

Description	Start Year	End Year	Annual Amount
Initial yearly expense	2026	Ongoing	\$73,000
Car or something	2026	2030	\$5,000

Market & Inflation Assumptions

Inflation Rate	2.80%
Equity / Stock Mean Return	10.40%
Bond Mean Return	3.93%
Cash Mean Return	2.75%
Real Estate Mean Return	5.10%
Equity / Stock Standard Deviation	15.00%
Bond Standard Deviation	5.00%
Cash Standard Deviation	1.00%
Real Estate Standard Deviation	8.70%
Sequence Risk Enabled	No

Tax Assumptions

Tax Filing Status	Married filing jointly
Calculate Income Taxes	Yes
Calculate Payroll Taxes	Yes
Calculate State Taxes	Yes
State of Residence	NM
Include RMDs	Yes
